WYNN CINEMA WEDDING VIDEO

Using the latest in video technologies and special lenses, our wedding cinematographers can capture a unique and current film-like presentation of the highlights of your special day. We start a few hours before your ceremony to capture all the anticipation while you're preparing for your ceremony. The highlights of your ceremony, portrait session and reception are carefully lit and recorded with your song choices. The final presentation is a 6 to 10-minute short film set to music that records the excitement and emotion of your special day. This cinematic video is delivered on standard DVD, HD Blu-Ray disc, as well as a digital file for your computer or digital media player.

\$1,200 for the first four hours (minimum) of cinema video coverage.

Add one additional camera operator to any of the above upgrades to extend the area of coverage and increase the images captured.
